

## OWNER'S LETTER

### For State of California Owner's

Dear Nissan Rogue Owner:

Nissan has discovered that your vehicle may be equipped with an improperly calibrated Engine Control Module (ECM) that, if not repaired, could eventually cause exhaust gas emissions to exceed California standards. This incident has no effect on fuel consumption, drivability, performance, or safety.

You should also be aware that if your vehicle is not repaired it may fail a Smog Check test in those areas of California where such testing is required under state law. The California Department of Motor Vehicles, in conjunction with the Air Resources Board, has implemented the Registration Renewal/Recall Tie-In Program, which requires affected vehicles registered in California to complete the recall before the DMV will issue a registration or renewal.

#### **What Nissan Will Do**

To correct this condition, Nissan is conducting an Emission Recall Campaign to reprogram the Engine Control Module in your vehicle. This free reprogramming service should take about one hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule. **To ensure the least inconvenience for you, it is important that you have an appointment before bringing your vehicle to the dealer for service.**

Your vehicle is eligible for this free service even if non-original parts were used for previous service and repairs, or if the service was performed by a repair facility other than a Nissan dealer.

#### **What You Should Do**

Contact your Nissan dealer at your convenience in order to arrange an appointment to have your vehicle repaired beginning on October 13, 2014. Please bring this notice with you when you arrive for your service appointment. Instructions have been sent to your Nissan dealer.

If the retailer fails to, or is unable to complete this service free of charge, you may contact the Nissan Consumer Affairs Department at the toll free number **1-800-NISSAN1** (1-800-647-7261) or by mail at:

**Nissan North America, Inc.**  
**P.O. Box 685003**  
**Franklin, TN 37068-5003**

Thank you for your cooperation. We are very sorry for any inconvenience this may cause you.

### For Non-California Owner's

Dear Nissan Rogue Owner:

Nissan has discovered that your vehicle may be equipped with an improperly calibrated Engine Control Module (ECM) that, if not repaired, could eventually cause exhaust gas emissions to exceed Federal standards. This incident has no effect on fuel consumption, drivability, performance, or safety.

#### **What Nissan Will Do**

To correct this condition, Nissan is conducting an Emission Recall Campaign to reprogram the Engine Control Module in your vehicle. This free reprogramming service should take about one hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule. **To ensure the least inconvenience for you, it is important that you have an appointment before bringing your vehicle to the dealer for service.**

#### **What You Should Do**

Contact your Nissan dealer at your convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you arrive for your service appointment. Instructions have been sent to your Nissan dealer.

If the retailer fails to, or is unable to complete this service free of charge, you may contact the Nissan Consumer Affairs Department at the toll free number **1-800-NISSAN1** (1-800-647-7261) or by mail at:

**Nissan North America, Inc.**  
**P.O. Box 685003**  
**Franklin, TN 37068-5003**

Thank you for your cooperation. We are indeed sorry for any inconvenience this may cause you.
